

MUHAMMAD MUSTAFA

Electrical Engineer

📍 Riyadh, Saudi Arabia
☎ +966 531 295 136
✉ eengg.mustafa@gmail.com

Transferable Iqama | Immediate Joining | Willing to Relocate Across GCC

PROFESSIONAL SUMMARY

Results-driven **Electrical Engineer** with over **4 years of experience** in electrical construction, QA/QC, testing & commissioning, and MEP projects across commercial buildings, infrastructure, EPC, and switchgear manufacturing environments. Experienced in electrical installation, inspection, quality control, testing, commissioning, and project coordination for LV/MV electrical systems.

Strong knowledge of **Saudi Aramco, SEC, IEC, IEEE, NFPA, NEC, and Saudi Building Code (SBC)** standards with proven ability to supervise construction activities, perform quality inspections, coordinate multidisciplinary teams, and deliver projects safely, efficiently, and in compliance with project specifications.

Seeking opportunities as **QA/QC Electrical Engineer, Electrical Engineer, Testing & Commissioning Engineer, Site Electrical Engineer, or Electrical Inspector** within leading organizations across the GCC.

CORE COMPETENCIES

- QA/QC Electrical Inspection
- Testing & Commissioning
- Electrical Construction
- Electrical Installation
- Site Supervision
- LV & MV Power Distribution
- Switchgear & Transformer Installation
- MDB, SMDB & DB Installation
- Cable Pulling & Termination
- Grounding & Lightning Protection
- Electrical Troubleshooting
- Inspection Test Plans (ITP)
- Inspection Requests (IR)
- Material Inspection Requests (MIR)
- Method Statements
- Quality Documentation
- Electrical Drawings & Shop Drawings
- Project Coordination

PROFESSIONAL EXPERIENCE

QC Electrical Engineer

MAS Engineering & Construction Ltd. | Riyadh, Saudi Arabia
April 2026 – Present
Project: LEMAR Commercial Complex – Riyadh

QA/QC Electrical Engineer

MAS Engineering & Construction Ltd. | Riyadh, Saudi Arabia
December 2024 – April 2026
Project: PRIME Business Resort – Riyadh

QA/QC Electrical Engineer

Power Solutions Pvt. Ltd.
July 2023 – November 2024

Electrical Engineering Intern

Power Solutions Pvt. Ltd.
January 2022 – June 2023

KEY RESPONSIBILITIES

- Supervise electrical installation works on commercial construction projects.
- Ensure electrical works comply with approved IFC drawings, shop drawings, specifications, and quality standards.
- Perform QA/QC inspections in accordance with Inspection Test Plans (ITPs) and project procedures.
- Inspect cable trays, conduits, trunking, cable pulling, cable termination, lighting, grounding, and lightning protection systems.
- Supervise installation of transformers, LV/MV switchgear, MDBs, SMDBs, DBs, ATS panels, generators, UPS systems, and capacitor banks.
- Conduct testing and commissioning activities, including insulation resistance, continuity, earth resistance, loop, and functional testing.
- Prepare Inspection Requests (IR), Material Inspection Requests (MIR), testing reports, and quality documentation.
- Coordinate with consultants, clients, subcontractors, and multidisciplinary teams throughout project execution.
- Review electrical drawings, technical submittals, material approvals, and specifications.

- Monitor subcontractor performance and ensure quality workmanship.
 - Coordinate material inspections, delivery, storage, and utilization.
 - Prepare daily, weekly, and monthly progress reports.
 - Support preparation of as-built drawings and project handover documentation.
 - Ensure compliance with Saudi Aramco, SEC, IEC, IEEE, NFPA, NEC, and Saudi Building Code (SBC).
 - Maintain compliance with HSE procedures, Permit to Work (PTW), and project safety regulations.
-

EDUCATION

Bachelors Degree in Electrical Engineering (PEC Registered)

GIFT University, Pakistan
Graduated: 2023

OTHM Level 6 Diploma in Occupational Health & Safety

Ofqual Regulated Qualification – United Kingdom
Completed: 2024

PROFESSIONAL CERTIFICATIONS

- OTHM Level 6 Diploma in Occupational Health & Safety
 - OSHA 30-Hour Construction Safety
 - IOSH Managing Safely
 - ISO 9001:2015 Quality Management Systems
 - LeanPM® Black Belt
 - LeanPM® Green Belt
 - LeanPM® Yellow Belt
 - Six Sigma Black Belt – Project Management
 - Google Project Management Fundamentals (Coursera)
 - Confined Space Safety
 - Fire Safety
 - Electrical Safety
 - Work at Height (OSHAC)
 - First Aid & CPR (OSHAC)
-

TECHNICAL SKILLS

Electrical Engineering

- Electrical Construction Management
- Electrical Installation & Site Supervision

- QA/QC Inspection
- Testing & Commissioning
- LV & MV Power Distribution
- Switchgear & Transformer Systems
- MDB, SMDB & Distribution Boards
- ATS & Generator Systems
- Cable Routing, Glanding & Termination
- Grounding & Lightning Protection
- Electrical Troubleshooting
- Load Calculations
- Electrical Drawing Interpretation

Quality & Project Management

- Inspection Test Plans (ITP)
- Inspection Requests (IR)
- Material Inspection Requests (MIR)
- Method Statements
- Quality Assurance & Quality Control
- Material Management
- Project Planning & Scheduling
- Project Coordination
- As-Built Documentation
- Handover Documentation

Software

- AutoCAD
- Microsoft Excel
- Microsoft Word
- Microsoft PowerPoint
- Microsoft Office

Standards & Codes

- Saudi Aramco Standards
- Saudi Electricity Company (SEC) Standards
- IEC Standards
- IEEE Standards
- NFPA Codes
- NEC Standards
- Saudi Building Code (SBC)

LANGUAGES

- **English:** Professional Working Proficiency
- **Urdu:** Native
- **Arabic:** Basic Communication
